REF: Case against MERRICK

Honorable Judge Knepp-

I'm writing in reference to my case against Merrick Bank. I understand there is a settlement hearing January 22, 2016 at 9:30am in Chambers 318.

I am writing to request a Notice of Dismissal, Without Prejudice, in line with Rule 41 so I may have the right to refile my case within a year time.

This request is made for two reasons. One, I am still unable to vocally communicate due to a throat illness. See attachment of doctor visit. I'm going back to my family doctor on Tuesday the 19th, to request an appointment with an ear, nose and throat specialist for this week, if possible. As I'm not certain it may not be throat cancer.

Second reason is, I'm still in contact with Diana Lipszyc, with the Toledo Bar Association and getting help on bringing an attorney on board for my case. Previous attorney Mandy Jamison messed around for a couple months on reviewing my case and then after \$250 for her to look over my case, she decided not to take it due to time restrictions. That was time lost searching out an attorney. In the meantime, I've had vocal problems which have become worse to where I am unable to vocally communicate.

Thank you for your time in this matter.

Sincerely,

Dennis Bowers

Progress Note
